

EUROPÄISCHES PARLAMENT

ARMIN LASCHET

MITGLIED DES EUROPÄISCHEN PARLAMENTS

Europe Connect
Tatjana Beckers
Place des Bienfaiteurs 27
B - 1030 Brussels

Brussels, April 28th 2004

Dear Ms Beckers,

I thank you for the presentation of the event concept OPEN EUROPE – OPEN ART.

The project is of exceptional quality and evidence.

Since its foundation the aim of the European Parliament has been to build up a united Europe. My assessment of your project is, that this concept directly corresponds to the Parliament's aims and targets in several aspects and supports our work.

We have to bring the European nations into an active dialogue to promote an integration process of intercultural convergence, which is the aim of your project.

The aim and the definition of your project give a concrete description of this process, which means the installation of a platform bringing the various European cultures into an (inter-) active exchange. During this process, the actual topics and events of the daily political operation can be included into the project. The platform is highly interesting and could be useful for the transport of political discussions, developments and decisions.

I support the project / concept OPEN EUROPE – OPEN ART which could be an instrument of interactive communication for both Europe and the European Parliament. It could accelerate and relieve the working processes of the Parliament in several fields. Europe's citizens could always be informed and integrated.

During the process of the realisation of the project I will be ready to advice, accompany and support you.

I am highly interested in the realisation of the project and would be glad to support you on the way of realisation.

Best regards,
